Dr. Kiyo Tomiyasu has over the years provided guidance on IEEE matters and practices to a whole generation of Geoscience and Remote Sensing Society's (GRSS) Administrative Committee members. He has drawn our attention to a variety of things ranging from election procedures and term limits to updating the Bylaws and Constitution, providing statistics on other IEEE Societies' practices and suggesting improvements to ours. My family joins me in congratulating Kiyo on the occasion of his 90th birthday and wishing him and his wife Eiko good health. My daughter Paula wishes her "Uncle Kiyo": Otañjoubi omedetou, Kiyo-san!
